

Curricular Targets

Maths - Symmetry

YR - Y6

Based on the lancsngfl targets.

I can make a symmetrical picture from objects.

I can point out matching pairs on each side of the middle of a picture.

I can fold shapes in half and make them into symmetrical patterns.

I can recognise line symmetry.

I can identify and sketch lines of symmetry in simple shapes and recognise shapes with no lines of symmetry.

I can draw the reflection of a simple shape in a mirror line along one edge.

I can sketch the reflection of a simple shape in a mirror line parallel to one side.

I can recognise reflective symmetry in regular polygons.

I can complete symmetrical patterns with two lines of symmetry at right angles.

I can recognise where a shape will be after reflection in a mirror line parallel to one side.

I can recognise where a shape will be after reflection: in a mirror line touching the shape at a point.

I can reflect a shape in one co-ordinate axis and then the other.
