Concerned."

Concerned, but not cowed.

Inside his dimly lit office, Gates looks over blueprints for Gateway's new headquarters in Irvine in 2004.

one billion shares a day, or what is traded on Nasdaq predicts that total will be one billion shares a day by the end of the year. Recently, the company's stock price has fallen to 10 dollars a share on Wall Street.

"We're going to be in a position where we can move forward with confidence," says Gates. "We're not going to be one of those companies that is in a state of flux."

te of

Gateway (GOO) was named in the early 2001. The company has a long history of delay, though it has not yet moved into its new headquarters in the future.

delay

can't just move," Maya said. The SEC has said that the company must provide more information before it can approve the move.

Gropper adjourns until March 21, when he will consider a purported \$1 billion claim the AFA says it is owed. He said the two sides are still in talks.

Inside at the Cinch, a local watering hole at Florin and Power Inn where Rita Garcia has served drinks for 10 years, she doles out her frustrations.
